Plastics Park Concept

Plastics Park

PROVIDING
367,500 TONNES
RECYCLING AND RECOVERY

CO₂ SAVINGS
OF 170,000 TONNES
PER YEAR

View towards Plot 10a & 11

- Material Recycling Facility (Plot 10a) Plot 10a - 75,000tpa of dry mixed recyclates.
- Plastics Recycling Facility 1 (Plot 11) - 200,000tpa of mixed waste plastics.
- Plastics Recycling Facility 2 (Plot 12) - 90,000tpa pre-sorted waste plastics.
- Polymer Laminate Recycling Facility (Plot 9b) 2500tpa of plastic aluminium laminates
- Hydrogen Refuelling Station (Plot 9b) capable of dispensing 1000kg of Hydrogen

View from Helsby Hill

- Area – approximately 30 acres
- Hours of Delivery – 07.00 -19.00
- Input – 367,500 tonnes per annum
- HGV's - 173 in, 173 out
- Building heights – 16.1m (max)
- Stack height – 11m Polymer Laminate Recycling Facility

View East PET Recycler

Part of a £165m investment in the Plastic Park

Reducing the need for virgin plastic

OVER 130 JOBS

Single site solution for **separation and recycling** of mixed plastics

Providing a **circular economy solution** to waste plastic in the North West
